

ADJUSTABLE SHARPENING JIG

For grinding a wide range of tools. Ideal for woodturning gouges, scrapers, parting tools and other chisels (the adjustable quadrant positions the tool - such as a skew chisel - at the correct skew angle).

Helps produce a hollow ground bevel that can be honed to a razor sharpness.

Supplied with full instructions as well as additional tips for effective sharpening.

\$69.00

**Don't throw out those blunt drillbits !
Simply sharpen them and use them again and again. This will sharpen just about any drill bit including masonry bits, Spade bits, Woodboring bits, High Speed Steel bits, Masonry bits, Centre Point bits, even SDS Plus bits (Tungsten carbide)
Simply connects to any powerdrill.**
